## 1. COVID19

Covid19 has had an obvious impact. Many clubs have continued to meet online (normally via Zoom) and I am aware that recently a number are beginning to meet again face-to-face. It is difficult to ascertain what impact Covid19 has had/will have on membership numbers, although early indications are numbers have not declined at a greater rate than normal.

## 2. THE ROTARY SPEAKERS CLUB

PDG Robert has maintained connections during lockdown and is now in the process of returning to meetings. Robert established a working group to move this group forward and is in the process of establishing if they want to grow as a 'satellite' or a new 'stand alone' club.
